Manufacturing Machinery

A **CLS hire purchase agreement** is the perfect way to fund CNC, laser and fabrication machinery.

Add capacity to take on new work and spread the cost of machines, tooling and installation over fixed monthly payments, keeping cash in the business for materials and wages.

Consider the benefits:

- Fixed monthly payments for the length of the agreement
- Online decisions within 24 hours in most cases
- CNC machines, lathes, laser cutters and press brakes
- New and used machines, UK or imported
- Release cash from machines you already own
- Finance available from £1,000 with no upper limit

Engineering and fabrication firms choose CLS because we understand production machinery and place deals with lenders on our panel of over 200 who are comfortable with it.

We offer a wide range of finance solutions for your business.
