# Robotics and Automation

A **CLS hire purchase agreement** is the perfect way to fund robot cells, cobots and automated handling.

Tackle labour shortages and rising volumes by spreading the cost of robots, tooling, guarding, software and integration over fixed monthly payments that the extra output can help to cover.

**Consider the benefits:**

- Fixed monthly payments for the length of the agreement
- Online decisions within 24 hours in most cases
- Industrial robots, cobots and welding cells
- Palletising, pick and place and vision systems
- Programming and installation can usually be included
- Finance available from £1,000 with no upper limit

Manufacturers, food producers and warehouses choose CLS because we explain automation projects clearly to lenders on our panel of over 200 and keep to the integrator's timetable.

**We offer a wide range of finance solutions for your business.**
